

Tasting Notes

WJ KING

200 YEARS OF LOCAL BREWING HERITAGE

King's IPA

5.2% ABV

Colour:
Copper-Pale Brown

Aroma:
Orange fruit, hops

Taste:
Balanced with hops building

Aftertaste:
Hoppy spiciness

The deeper colour of this IPA is more reminiscent of the new world IPAs than the English IPAs but do not be fooled, this is a solidly English style IPA. There's orangey fruit on the nose and some distinct hops presaging flavours to come. The initial taste is well balanced between the malt and resinous hops but in the aftertaste the hops flavours build and the spicy hops develop such that this would be bold enough to stand up to and thereby complement your Friday night spicy curry!

Head Brewers Notes:

'A traditional IPA, beer as it once was'
Ian Burgess, Head Brewer.
